During my sabbatical in Fall 2006, I studied Music, Language and the Brain. Attached is a working bibliography that I used in my research. Also attached are the powerpoint presentations. Please note that the music files on the presentations cannot be transferred. In addition to the reading, I:

1) Audited Music Appreciation course at Collin
2) Attended “Learning and the Brain” conference in Boston
3) Compiled 2 PowerPoint presentations, complete with music files. One will be presented at conferences and the other was presented at Developmental Education Meeting on August 16th, 2007.
4) Collaborated with Cary Israel and Mary McRae on locating a speaker in the area of brain research for All College Day on August 15, 2007.

I will continue to use the information that I gained during my sabbatical to teach my classes.

If you have any questions, please let me know.
Thank you.
